Referral Letter

SAMPLE / FICTIONAL - for software testing only. Not medical advice.

Date: 26 September 2026

To: Dr. Mehta, Consultant Endodontist

Re: Mr. dan, 30 years, male (PAT-004)

Dear Dr. Mehta,

I am referring this patient for evaluation and retreatment of tooth 46. The tooth had root canal treatment in 2023 elsewhere and now has persistent pain on biting for three weeks.

An IOPA radiograph taken on 25 September 2026 shows a periapical radiolucency of about 4 mm at the mesial root. No facial swelling. No known drug allergies. No relevant medical history.

Appointment with you is fixed for Tuesday, 6 October 2026 at 4:30 PM.

Kind regards,

Dental Clinic

Reply from Dr. Mehta - 6 October 2026 (SAMPLE)

Findings: calcification noted in the mesial canals of tooth 46; the old filling is short of the apex.

Plan: non-surgical retreatment in two visits, followed by a full-coverage crown.

Estimated cost: Rs. 9,500 for retreatment plus Rs. 6,500 for the crown.

Please keep the tooth under a temporary dressing between visits and review after 6 months.
